EXPERIENCE

Full Stack Developer

Car wizard private imited

📅 08/2024 - Present   📍 Noida, India

Description:

- **Designed, developed, and deployed** the complete **VahanHelp CMS** for Car Wizard, providing streamlined workflows for managing vehicle registrations, ownership transfers, and RC renewals.
- Built the system from the ground up using the **MERN stack** (MongoDB, Express, Node.js), with a front-end interface using **EJS** for enhanced server-side rendering and better user interaction.
- Implemented core functionalities like **admin and user management**, secure **file handling**, **Twilio message notifications**, and **Excel uploads** for bulk data processing.
- Developed and launched vahanhelp website.
- **Singlehandedly managed all tech and IT** needs of the company, demonstrating adaptability, problem-solving, and project management skills.

PROJECTS

VahanHelp CMS

📅 09/2024 - Present   📍 Noida

Description:

- A custom-built CMS developed for Car Wizard to streamline workflows in vehicle management, including registration, ownership transfers, and RC renewals. **Link**
- **Tech Stack**: MERN (MongoDB, Express.js, Node.js, EJS for templating).
- *Key Features*:
- **Admin/User Management**: Developed robust access controls for managing different user roles.
- **Notifications**: Integrated Twilio to send SMS updates to buyers and sellers.
- **File Handling & Data Processing**: Enabled secure file uploads and batch processing through Excel integration.

Movie app (React Js)

📅 02/2024 - 05/2024   📍 Agra

Description:

- A responsive movie browsing app built with React, allowing users to explore and search for movies.
- **Tech Stack**: React.js, API integration for real-time movie data.
- **Key Features**:
- **Dynamic Search**: Integrated a movie API to allow users to search for movies and view detailed information.
- **Responsive Design**: Created a mobile-friendly interface with a clean, user-centric design.
- **Interactive UI**: Implemented features like movie previews, filters, and smooth transitions to enhance user experience.
