SUMMARY

Junior Web Developer with MERN Stack Skills │ Backend & Frontend Experience

EXPERIENCE

Junior Web Developer

Car Wizard private limited

📅 08/2024 - Present 📍 Noida, India

Description:

- Designed and developed a comprehensive Task manager application using NodeJS, Express, EJS and Mongoose, facilitating efficient task management and improving user interaction through a clean, responsive interface.
- Created a fully responsive website for Vahan Help, ensuring an optimal user experience across various devices and screen sizes.
- Implemented user authentication and authorization features to secure access to the application, enhancing data protection and user privacy.
- Developed an admin panel for the Vahan Help application, allowing administrators to manage tasks and users effectively, with features for viewing, editing, and deleting records.
- Built and hosted the Vahan Help website, focusing on user-friendly design and functionality, optimized for performance and usability.
- Developed and integrated RESTful APIs, significantly improving application performance and enabling seamless data management across various functionalities.
- Managed all technical aspects of the project, including deployment, server configuration, and ongoing maintenance, ensuring high availability and reliability of the application.

PROJECTS

Project CMS- Task Management System

📅 09/2024 - 10/2024 📍 Noida, India

Description

- **Developed a CRUD application** enabling users to create, read, update, and delete tasks, enhancing productivity and organization.
- **Implemented a user authentication system** with token-based sessions for secure access and user management.
- **Integrated an admin panel** that allows administrators to manage all tasks, view user activities, and perform administrative actions, ensuring smooth operations and oversight.
- **Added advanced features**, including CSV file upload functionality for bulk task creation and inline task status updates, streamlining user interactions and enhancing overall usability.

Awwwards Website

📅 06/2024 - 07/2024 📍 Agra

Description

- Analyzed and replicated the design and functionality of an **Award winning website**, focusing on user experience and responsiveness.
- Utilized modern web technologies to ensure the clone mirrors the original in both aesthetics and usability.
- Integrated **GSAP** for smooth animations and transitions, enhancing the overall look and feel of the site.
- Enhanced my development skills by reverse-engineering the features and implementing best practices.

SKILLS

Web Development: HTML, CSS, JavaScript, EJS, Express.js, Mongoose

Backend Technologies: Node.js, RESTful APIs
